Accounting practices are deeply implicated in the current financial crisis and in proposals for recapitalizing financial institutions and restoring stability to the global financial system.

Global financial crisis: The challenge to accounting research

1.. Introduction This paper offers a view of the relevance of value relevance research for financial accounting standard setting that contrasts with the view offered in Holthausen and Watts (2001) (hereafter HW). A key conclusion of HW is that value relevance research offers little or no insight for standard setting.

The relevance of the value relevance literature for

In accounting, reconciliation is the process of ensuring that two sets of records (usually the balances of two accounts) are in agreement. Reconciliation is used to ensure that the money leaving an account matches the actual money spent. This is done by making sure the balances match at the end of a particular accounting period.

Reconciliation (accounting) - Wikipedia

The Financial Review division was established for the purpose of reviewing financial records and accounting of local governing school boards and assisting local units of administration in training personnel in financial and budgetary accounting.
