I'll create an WCF for uploading file such as images or pdf files to the server. How can I create a service that can handle this function? I tried to googling about it, but most of article told me to use Stream as service parameter.

c# - upload file wcf - Stack Overflow

I am developing the SSRS report and wanted to consume the one method call of the WCF service. Suppose I have a service Url like `http://localhost:2014/security.svc` and wanted to consume string `Encrypt(string data)` method from that service. Now I know how to use XML and Web service as the data source.

reporting services - How to call WCF method from the SSRS

Get Started scripting language. A scripting language is a form of programming language that is usually interpreted rather than compiled. Scripting languages are typically converted into machine code on the fly during runtime by a program called an interpreter.

.Net development information and Visual Basic / VB

Web Services Enhancements (WSE) is an obsolete [citation needed] add-on to the Microsoft.NET Framework, which includes a set of classes that implement additional WS-* web service specifications chiefly in areas such as security, reliable messaging, and sending attachments. Web services are business logic components which provide functionality via the Internet using standard protocols such as HTTP.

A service-oriented architecture (SOA) is a style of software design where services are provided to the other components by application components, through a communication protocol over a network. The basic principles of service-oriented architecture are independent of vendors, products and technologies. A service is a discrete unit of functionality that can be accessed remotely and acted upon ...
