Plot. An unidentified flying object makes an emergency landing on Earth and is taken into custody by the United States government. The occupant of the "flying saucer" turns out to be a strange cat-like alien named Zunar-J-5/9 Doric-4-7. Since the Mother Ship cannot send a rescue party before it leaves the solar system, the cat sets about investigating how to repair the ship himself.

The Cat from Outer Space - Wikipedia

Non-human animals in space originally served to test the survivability of spaceflight, before human spaceflights were attempted. Later, other non-human animals were flown to investigate various biological processes and the effects microgravity and space flight might have on them. Bioastronautics is an area of bioengineering research which spans the study and support of life in space.
